

SQL Servers Reporting Services

By utilising Microsoft SQL Server Reporting Services (SSRS) Destin Solutions are able to provide you with a full range of tools and services to help you create, deploy and manage reports for all aspects of your organisation.

Our consultants can provide you with the model/universe for your specific database, develop the reports to meet your requirements and train your staff in building, running and scheduling the reports.

The key benefits to this innovative approach to management reporting are:

- Meta-data (models) simplify creating reports
- Reports accessed through Internet Explorer
- Schedule reports to run as and when required
- No expensive software required to create reports

For further information on our range of products and services or to arrange a demonstration please contact:
